HOLIDAY ACTIVITIES (2019-20)
L. K. G.

Dear parents,

Summer vacations for the children are synonymous with fun , frolic , playing for longer hours, picnics, exploring new places, waking & sleeping late.

Children are quick enough to get into a holiday mood and equally quick to forget what they have learnt in school and that is why we have planned some activities to keep the little ones occupied and channelize their energies as well as enhance their learning abilities. Kindly ensure that the holiday fun activities are completed by the student under your guidance .

1. Developing fine motor skills - encourage your child to sort grains , roll chapattis ,squeeze sponge, put pegs on the rim of a glass , scribble with chalk or crayon. Draw circles, ball , balloon , sun etc.

2) Cognitive and Motor Development -

- a) Read stories to your ward repeatedly as repetition of the same stories is not only enjoyed by the children but it helps them to memorize it too. You could also encourage your ward to narrate the stories in the correct sequence . Thus developing their thought process.
- b) Tearing waste old news papers into tiny little pieces.
- c) Scribbling with crayon on waste sheets of paper.
- d) Forming fanciful figures from kneaded flour.
- e) Set aside a regular time everyday to read to your child.
- f) As far as possible try to converse with your child in English using simple sentences and encourage him / her to speak in English too.

3) Development of precision & accuracy - Let the child follow a pattern using a pencil by joining dots, or stringing beads , encourage colouring the pictures of news paper or the ones drawn by you .

4) To enhance memory & reasoning – encourage your child to recollect all the day's happening in a sequence as this would increase his/her memory skills.

5) Cultivate manners - Do not forget to inculcate the use of four golden words Please ,thank you ,sorry & excuse me. To put things back in their proper place ,and how to eat with a spoon .
