

Consolidated Worksheet no . 1 English

Name: _____ Grade: II Roll No: _____ Date: _____

English 1- Non Fiction

MM:15

Dinosaurs are a group of reptiles that have lived on Earth for about 245 million years. Dinosaur fossils have been found on all seven continents. There are roughly 700 known species of extinct dinosaurs. Birds are the closest relative to a dinosaur that we have.

Here are some interesting facts about dinosaurs.

- The word dinosaur means terrifying lizard.
- This name was invented by Sir Richard Owen in 1842.
- The oldest known dinosaur is Eoraptor, a meat-eater that lived 228 million years ago.
- Most dinosaurs hatch from eggs, and they could not fly or live in water.

Paper 2-English (Fiction)

MM: 15

A Golden fish

A fisherman catches a golden fish. When the fish announces that he is a prince under an evil spell, the fisherman throws him back into the sea.

On his return to his **hovel**, his wife became angry and asked "Did not you ask it for anything?" "We live very wretchedly here, in this nasty dirty hovel. Do go back and tell the fish we want a snug little cottage."

The fisherman went back to the seashore, and when he got back there the water looked all yellow and green. He stood at the water's edge, and said,

"O man of the sea!

Listen to me!

My wife Ilsabill

Will have her own will,

And she has sent me to beg a gift of thee!"

Then the fish came swimming to him and said, "Well, what is her will? What does your wife want?"

"Ah!" said the fisherman. "She says that when I caught you, I ought to have asked you for something before I let you go. She does not like living any longer in the dirty hovel, and wants a snug little cottage."

"Go home then," said the fish, "she is in the cottage already!" So the man went home, and saw his wife standing at the door of a nice trim little cottage.

Hovel: A small home in a dirty condition

Wretched: Poor

Read the above text and answer the following questions:

1. Why did the fisherman throw the golden fish back into the sea? [2]

.....
.....
